

Work faster, work better:

DryShield® empowers excellent dentistry

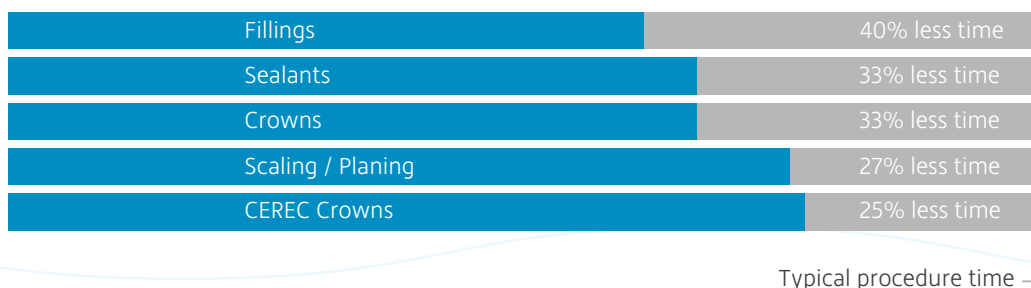

BEFORE

AFTER

DryShield is isolation simplified, performing all the tasks of a high-suction evacuator, bite block, tongue shield, cheek retractor, and oral pathway protector in one easy-to-use device.

Enhance productivity and improve outcomes. Complete procedures 25-40% faster while achieving optimal results.

95% of dentists reported that DryShield made it easier to perform restorative procedures while improving procedure quality.

During procedures, DryShield removes aerosols right at its source within the oral cavity. Protect yourself and your staff from potentially harmful airborne pathogens!

Value and Performance:

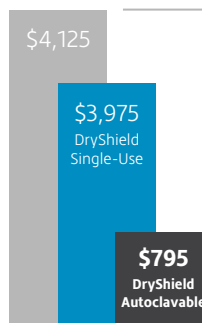

A premium product that fits into the economics of a modern dental practice

Upfront costs for DryShield are 61% less than modern isolation alternatives. DryShield dentists also save up to 81% in mouthpiece consumable costs—every year!
