

⑤ Solution

Amalgam Capture and Recycling

! The Problem

Dental offices are the **#1 non-industrial disposer of mercury waste** in the US contributing to water pollution and endangering the environment and public health.

⚙️ The NXT® Hg5 Amalgam Separator Solution

- Easy installation and maintenance.
- Recycling and disposal of mercury waste protects the public water supply.
- Available in 3 sizes to suit your practice.
- Convenient mail-back recycling program.
- Meets all EPA “Dental Amalgam Rule” waste recycling requirements.

👍 Why it Matters

You can help protect your community's water supply.

5.1
Tons

tons of toxic mercury are prevented from entering public waterways annually.

5
Years

The NXT® Hg5 saves the life of the practice's vacuum by approximately 5 years.¹
